

Working Safely Course

Everyone at work should have an understanding of why they must 'work safely'. Working safely is a one-day course for people at any level, in any sector, needing a grounding of health and safety. It focuses on why health and safety is important, and how you can make a real difference to the wellbeing of yourself and others through changing your behaviour.

It focuses on best practice rather than legislation, it's suitable for delegates from around the world.

The course is a 100% match to the Health and Safety Executive's 'Passport' syllabus.

Working safely is recognised as an equivalent to a level 1 award in health and safety in a construction environment. This means that delegates who successfully complete it can apply for a Construction Skills Certification Scheme (CSCS) green Labourer card once they've passed the CITB Health, Safety and Environment Operatives Test.

This course aims to give candidates a basic understanding of the essentials of Health and Safety in the workplace.

The course is delivered as presentations, discussion and group working, and is assessed in order to provide a nationally recognised qualification from IOSH.

The programme comprises 5 modules

FIVE INTERACTIVE MODULES:

1. Introducing working safely
2. Defining hazard and risk
3. Identifying common hazards
4. Improving safety performance
5. Protecting our environment

Course Duration : 1 Day

At the end of the training participants will:

- Understand why they must 'work safely.'
- Understand the difference between hazards & risks.
- Understand hazard identification.
- Appreciate and improve upon safety performance within the workplace.
- Hold a CSCS recognised health & safety certification.

End of Course Assessments:

1. A 10 question, multiple-choice assessment paper (15 mins)
2. Three hazard spotting exercises (15 mins)

When you pass, you'll be awarded an IOSH Working safely certificate or a credit card-sized IOSH passport card.
